**QUESTION 1**

1.1.1. The bank's assets are valued at R100 million. The bank's liabilities are valued at R80 million. The bank's capital is valued at R20 million. The bank's capital is divided into R10 million of common equity and R10 million of preferred equity.

1.1.2. The bank's assets are valued at R100 million. The bank's liabilities are valued at R80 million. The bank's capital is valued at R20 million. The bank's capital is divided into R10 million of common equity and R10 million of preferred equity.

1.1.3. The bank's assets are valued at R100 million. The bank's liabilities are valued at R80 million. The bank's capital is valued at R20 million. The bank's capital is divided into R10 million of common equity and R10 million of preferred equity.

1.1.4. The bank's assets are valued at R100 million. The bank's liabilities are valued at R80 million. The bank's capital is valued at R20 million. The bank's capital is divided into R10 million of common equity and R10 million of preferred equity.

1.1.5. The bank's assets are valued at R100 million. The bank's liabilities are valued at R80 million. The bank's capital is valued at R20 million. The bank's capital is divided into R10 million of common equity and R10 million of preferred equity.

**QUESTION 2**

2.1.1. The bank's assets are valued at R100 million. The bank's liabilities are valued at R80 million. The bank's capital is valued at R20 million. The bank's capital is divided into R10 million of common equity and R10 million of preferred equity.

2.1.2. The bank's assets are valued at R100 million. The bank's liabilities are valued at R80 million. The bank's capital is valued at R20 million. The bank's capital is divided into R10 million of common equity and R10 million of preferred equity.

2.1.3. The bank's assets are valued at R100 million. The bank's liabilities are valued at R80 million. The bank's capital is valued at R20 million. The bank's capital is divided into R10 million of common equity and R10 million of preferred equity.

2.1.4. The bank's assets are valued at R100 million. The bank's liabilities are valued at R80 million. The bank's capital is valued at R20 million. The bank's capital is divided into R10 million of common equity and R10 million of preferred equity.

**QUESTION 3**

3.1.1. The bank's assets are valued at R100 million. The bank's liabilities are valued at R80 million. The bank's capital is valued at R20 million. The bank's capital is divided into R10 million of common equity and R10 million of preferred equity.

**QUESTION 4**

4.1.1. The bank's assets are valued at R100 million. The bank's liabilities are valued at R80 million. The bank's capital is valued at R20 million. The bank's capital is divided into R10 million of common equity and R10 million of preferred equity.

**ANSWERS TO QUESTIONS 1 TO 4**

QUESTION 1  
ANSWER

QUESTION 2  
ANSWER

QUESTION 3  
ANSWER
